

## 《尺度太大！日本“杀死童贞”毛衣走红》

导读:近日，一款“杀死童贞”毛衣风靡日本网络，大露背和露侧边的设计简直太“工口”。

THE young men of Japan are going nuts for an item of female clothing that's been specifically designed to grab their attention.

??

The mega-revealing piece of knitwear combines the nation's nerdy chaps' obsession with "boob turtlenecks" and "side-boob sweaters".

??

Pictures of the jumper went viral in Japan and it was quickly dubbed "the virgin-killing sweater".

??

It's the second jumper this year to be labelled doutei wo korosu, a phrase which suggests it would excite a virgin man so much he would die.

??

"The implication seems to be that the design is so scandalous that it will fry the brain of sex-starved lonely males," the English-language news site Rocket News 24 wrote.
